

IMPACT 100 NONPROFIT PARTNERS

United Way's Impact 100 is a group of 100 community partners that we believe are addressing the most critical health and human service needs. Every Impact 100 organization maintains a high bar of organizational accountability and effectiveness in terms of finances, governance and impact in the community. Our rigorous selection process included a variety of factors resulting in a diverse group of organizations — in terms of — geographic regions served and human service domains, covering a robust cross section of our community.
